

# Sam's Club® Food & Beverage

Sam's Club is proud to provide Members with a large selection of top-quality foods at an incredible value every day and will be adding even more new items to shelves this year. Only the best in meats, cheeses, seafood, produce and bakery items can be found on shelves at Sam's Club. Our high standards and rigid food requirements make it possible for Members to create everyday meal occasions at a significant value on a daily basis.

## *Meats*

- Sam's Club Angus beef program adheres to higher standards than other brands of Angus, resulting in Angus beef that is more tender, flavorful and consistent than the brand next door.
- Only one in five cattle meet criteria in Sam's Club Angus beef program and only grain-fed cattle are considered.
- Educating Members through labels and packaging is something Sam's Club is committed to. For example, Sam's Club has labeled cryovacs of meat with instructions on how purchase meat in bulk to later cut at home. This allows us to pass on significant savings to our Members.

## *Gourmet Cheeses*

- Sam's Club buyers explore the globe to find the best food and value. A selection of gourmet cheeses from around the world is carefully selected and available to Members on a daily basis.
- Entertaining is made easy for Members with the convenience of our ready to serve gourmet cheese platters, available at an incredible value.

## *Produce*

- Sam's Club is committed to offering Members the best in fresh foods. High-quality, carefully selected produce is purchased by variety, not commodity, ensuring Members bring to the table the best produce available, at a superior value.
- If produce does not meet Sam's Club high standards, it will not be sold in Clubs, even if that means being temporarily out of an item.

## *Frozen & Chilled Foods*

- Yogurt continues to be a popular item among Members. We've expanded the selection and moved the yogurt items to the prominent front doors of the cooler, creating more room to expand the selection for our Members.
- An improved layout and signage in the cooler area will make shopping more convenient for Members.
- Sam's Club has also leveraged supplier relationships to provide Members with an expanded assortment of top-quality frozen fruits and vegetables. The same strawberries and French beans Members purchase in the produce section are available in a frozen variety as well. Members can expect the same high quality selection of frozen fruits and vegetables as they find in the produce area.

Savings Made Simple

## *Bakery*

- From baked breads and rolls to muffins and croissants, our new bakery items focus on choice and quality.
- Our 'mix and match' program allows Members to choose favorites that will please everyone in the family.

## *Sustainable Seafood*

- Sam's Club requires all fresh and frozen, farmed and wild seafood products sold become third-party certified as sustainable using Marine Stewardship Council (MSC), Best Aquaculture Practices (BAP), or equivalent standards.
- Increasing the availability of sustainable seafood is a priority for Sam's Club.

## *Simply Delicious Meal Occasions*

- Sam's Club makes meal time easy for Members who visit [samsclub.com/meals](https://samsclub.com/meals). Helpful information and ideas for inspiration can be found on the website, including easy recipes, cooking and entertaining tips and videos from buyers.
- Sam's Club has also worked with suppliers to develop specialty items available exclusively for Members. At Sam's Club, Members can find a Hershey's S'more kit, containing everything needed to take to the campsite to make delicious Hershey's S'mores, all in one box. The Hershey's S'More kit is just one example of Sam's Club commitment to helping families create memorable meal occasions.
